TEXTURE

Activity

You will need:
Textured paper (I have used sandpaper)
Crayons
Inks or paints.

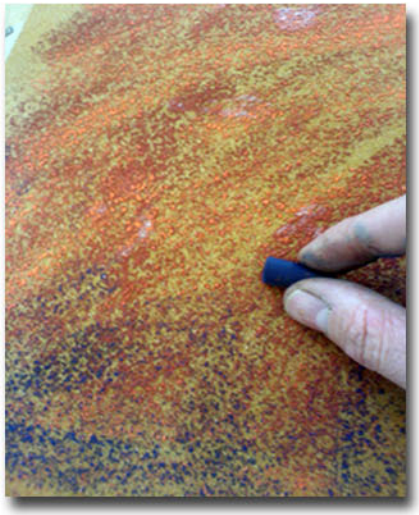
Use textured papers to create interesting effects. You can use sandpaper, wallpaper, even rubbings. Try experimenting with fabrics.

Use a big thick pencil to create a simple outline shape onto the paper.

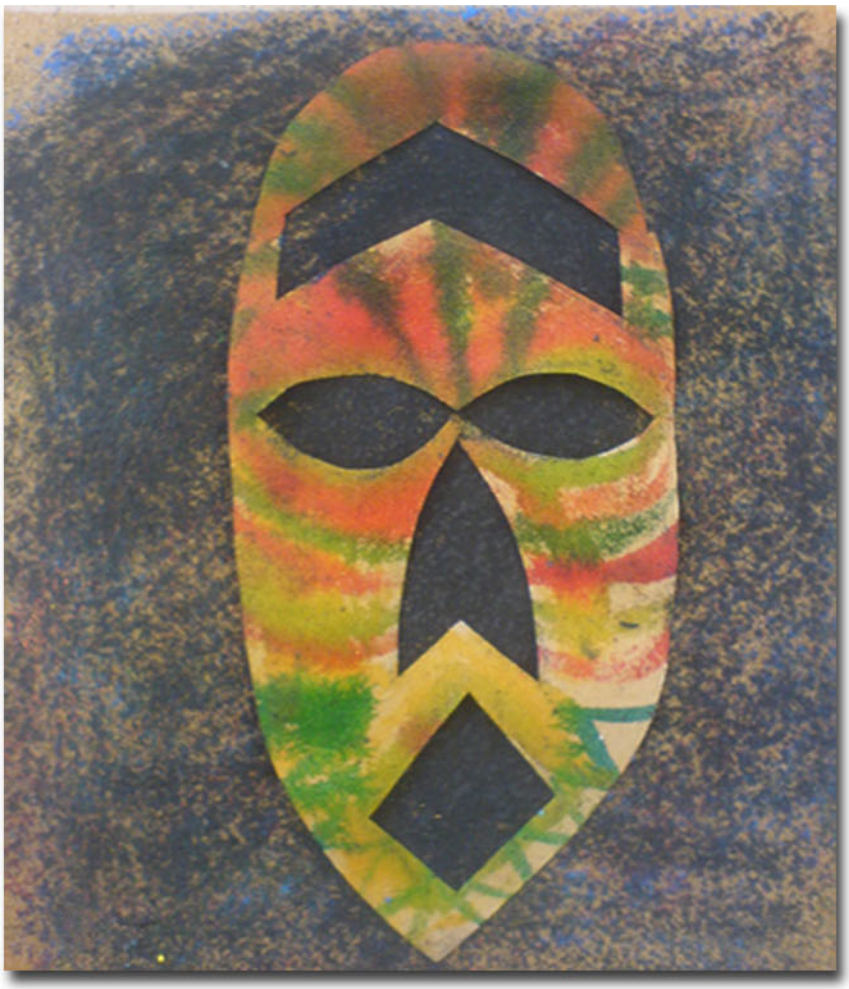
Carefully cut the shape out using a craft knife. BE CAREFULL!

You can place it against a different textured paper.

Use Inks to paint it a vibrant colour.



Colour a textured piece of paper using crayon



Try experimenting with different papers.
Wallpaper is excellent!.
